This request is for revision and extension of a currently approved information collection.

The NOAA Restoration Center (NOAA RC) provides technical and financial assistance to identify, develop, implement, and evaluate community-driven habitat restoration projects. Awards are made as grants or cooperative agreements under the authority of the Magnuson-Stevens Fishery Conservation and Management Act of 2006, 16 U.S.C. 1891a and the Fish and Wildlife Coordination Act, 16 U.S.C. 661, as amended by the Reorganization Plan No. 4 of 1970.

The NOAA RC requires specific information on habitat restoration projects that we fund, as part of routine progress reporting. Recipients of NOAA RC funds submit information such as project location, restoration techniques used, species benefited, acres restored, stream miles opened to access for diadromous fish, volunteer participation, and other parameters.

The required information enables NOAA to track, evaluate and report on coastal and marine habitat restoration and demonstrate accountability for federal funds. This information is used to populate a database of NOAA RC-funded habitat restoration. The database, with its robust querying capabilities, is instrumental to provide accurate and timely responses to NOAA, Department of Commerce, Congressional and constituent inquiries. It also facilitates reporting by NOAA on the Government Performance and Results Act “acres restored” performance measure. Grant recipients are required by the NOAA Grants Management Division to submit periodic performance reports and a final report for each award; this collection stipulates the information to be provided in these reports.

There are two progress report forms for simplicity. The Performance Report Form focuses on tracking project implementation, milestones, performance measures, monitoring, and expenditures. The Administrative Form only applies to recipients with an award that will

implement multiple projects. It collects information on the administration of the award, the number of projects supported by the award, and award expenditures.

Revision: The Performance Progress Report now has additions in the drops downs to allow for data to be entered for more than 3 years of project funding.

*Affected Public:* Business or other for-profit organizations; not-for-profit institutions; state, local or tribal governments.

*Frequency:* Semi-annually and one-time.

*Respondent's Obligation:* Required to obtain or retain benefits.
